

Understanding the SignGuardian™ Installation:

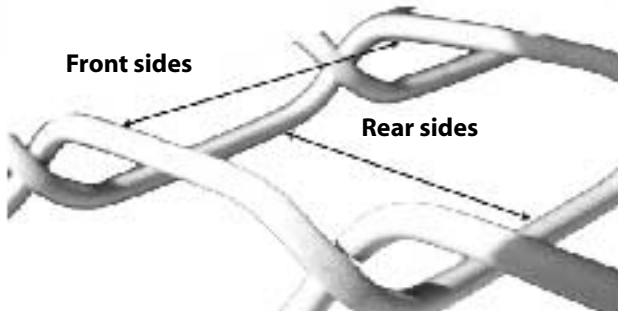

Now ONE PERSON can mount SignGuardian™ and sign from ONE SIDE of a fence!

Picture #1

The most common size of chain link fencing is a 2" diamond with a front and rear side.

Our SignGuardian™ is installed on the rear sides and becomes flush with the front side to mount the sign.

SignGuardian™ Exclusive

LOCK-ON
Feature™

When SignGuardians™ are installed they will mount signs flush with fence.

Picture #2 demonstrates SignGuardians™ and fence are flush with sign.

Picture #3: Lock-On Feature™ is inaccessible behind installed sign!
